Student Resources

Academic Integrity Checklist

☑ I have carefully reviewed and fully understand the assignment requirements as set out by the instructor.

☑ I have used only authorized sources in my assignment. I did not use resources explicitly prohibited.

☑ I have saved my research notes, including links to online resources, outlines, data, and early drafts used in my assignment.

☑ Phrases taken directly from another source have quotations around them and are fully referenced.

☑ I have included references to all ideas borrowed from other sources.

☑ Apart from material that is directly quoted, everything else is in my own words.

☑ I have read my assignment and there is no section or component that I do not understand. I understand the meaning of all words used.

☑ Graphics borrowed from the Internet are referenced.

☑ In paraphrasing the work of others, I put the complete idea into my own words (I did not just change some words).

☑ I did not use an app/hack to replace words/phrases in the assignment to pass on as my own.

☑ I did not upload this assignment to any "homework" site and I did not have anyone else do the work for me.

☑ I have checked my work against my notes to be sure I have correctly and accurately referenced all direct quotes or borrowed ideas.

☑ I did not share my work with others in ways that were not explicitly authorized by my instructor.

☑ This is the first time I am submitting this material in any course.
