July, 2018

Dear Nursing Students,

Congratulations! You are officially a first-year nursing student.

On behalf of the faculty and staff of St. Clair College School of Nursing, we welcome you. The first-year nursing program is an exciting time full of new challenges and opportunities to develop as critical thinking clinicians. We look forward to working with you towards the achievement of your professional and personal goals. Please note that the University of Windsor has added a study week the week of October 8th, therefore there will be no scheduled classes that week.

Enclosed is information for you with instructions to help you prepare for September 2018. Classes begin September 4th. Please utilize the St. Clair College – Nursing-BSCN website (http://www.stclaircollege.ca/programs/postsec/nursing/) to assist you in obtaining information and necessary documents to help you with your clinical clearance. This includes information for medical and nonmedical documents (e.g. CPR, First Aid, mask fit, vulnerable sector police clearance). Your clinical clearance is mandatory to attend the clinical site. The date for your clearance is also found on the website under Chatham Clinical Clearance Information First Year.

I wish to take this opportunity to extend my personal wishes for your continued success as you prepare for a rewarding career in your chosen Nursing field.

Have a wonderful summer.

Sincerely,

Linda Watson
Chair, School of Nursing St. Clair College

Information Package – Thames Campus St. Clair College
July 2018

"Were there none who were discontented with what they have, the world would never reach anything better.” - Florence Nightingale

Dear Student Nurse and member of the Class of 2022,

Welcome to St. Clair College Thames Campus -- Collaborative BScN Nursing Program. On behalf of the teaching team, I would like to congratulate you on your acceptance into the program. We look forward to a great year ahead!

This package contains some of the special Thames Campus information and program details.

Who’s here to help?

Linda Watson (519-354-9100 ex.3233) is the Chair for the School of Nursing. Her office is located upstairs outside the faculty office area. She is always happy to meet with students to address any questions or concerns they have. Call her Administrative Assistant Linda Quick at extension #3244 to schedule an appointment with Ms. Watson. Email: lwatson@stclaircollege.ca

Linda Quick is Ms. Watson’s Administrative Assistant who can be reached at (519-354-9100 ex.3244) available from 8:00 am to 4:00 pm. Linda’s desk is upstairs in the first office to your left outside the faculty office area. Email: lquick@stclaircollege.ca

Campus Orientation

Orientation will take place at Thames Campus, St. Clair College on Wednesday, August 29th, 2018 at 9:00 a.m. in the St. Clair College HealthPlex. Please attend this if you are able as it’s an excellent opportunity to meet the faculty and each other as well as pick up some important information. The Work Authority will also be selling uniforms this day on campus. This is a great time to set up carpools as well. The faculty has a wonderful introduction to nursing prepared for you that day!
Things to Do ASAP

Clinical clearance is mandatory to attend our clinical sites. Staff at our registrar’s office will review and validate your clinical requirements, both medical and non-medical. To prepare for your appointment, you must collect all the medical and non-medical documentation required prior to the appointment. Please see the St. Clair College website for this information: Chatham Clinical Clearance Information First Year

The following should be initiated as soon as possible to avoid delays.

1. **After August 1st, 2018, apply for your police clearance**—**must be a vulnerable sector police record check**. Information is available at the following site: http://www.stclaircollege.ca/programs/postsec/docs/annual_police_clearance_requirements.pdf

   **Reminder**—ID/Photo ID will be required i.e. Passport, License, etc. as well as payment (cost differs in each municipality). **Ensure your name is spelled correctly.**

   **Clear Police Clearances** are required for all clinical placements, and must be obtained **AFTER August 1st** as they must be done within 6 months of starting clinical placements in January. A police clearance is required **ANNUALLY or sooner** for the duration of your program. You will be required to present your original document (with the embossed seal) at your scheduled non-medical clearance appointment in the Registrar’s office and provide a photocopy for our records. Keep in mind that police clearances may take several weeks to arrive. Individuals are randomly selected for finger printing—this may also delay receiving your Police Clearance.

2. **Medical Clearance Health form** – A health form for your medical clearance may be downloaded from the following: http://www.stclaircollege.ca/programs/postsec/nursing/health_requirements.html

3. Appointments with your family physician or nurse practitioner can take a long time to schedule. Some immunizations require more than one office visit as well. Schedule this appointment as soon as possible to avoid delays, as you cannot attend clinical without your medical clearance health requirements being met (if you can’t attend clinical you are not eligible to pass the course). Please present your original documents at your appointment with the Health Center Nurse and provide a photocopy for our records.

4. **N95 Mask Fit Testing** – This fitting is needed every two years or anytime your facial features change in a significant way (i.e. large change in weight, cosmetic surgery, injury, etc.). This fit test is not required for first year of the program but is required for second year of the program and would need to be updated every 2 years.
5. CPR Level HCP (Health Care Provider) Certificate Card with AED (defib) and First Aid – You are required to have CPR Level HCP Certificate Card with AED, regular CPR will not be accepted. CPR must be updated every year despite what your CPR card may say. Our hospital placements require annual CPR updates for every nurse. You are also required to have a First Aid certificate but only for admission to the program, the first aid certificate will not require annual renewal. You will be asked to show these cards at your Campus nurse appointment each year. You may take these certifications from any provider that offers them.

6. Order your uniform from Work Authority (please see last page)
Unifoms for the program must have the collaborative program crest on the shoulder. The colour of our uniforms is navy blue. The uniforms will be worn throughout all four years of your education. Students are encouraged to double check the fit of their uniform. Larger is better than smaller. Nursing can be a very physical job and students need to be able to, bend, crouch, and reach comfortably and professionally. Furthermore, nurses carry many items in their pockets (e.g. pens, tape, stethoscope, alcohol wipes, gloves, keys, etc.) you need room in your uniform for full pockets. The collaborative BScN program would like to remind you that clinical uniforms are not to be regarded as regular clothes. They are a representation to the public and other health professionals of your professionalism as a student nurse not a statement of your social image.

Books and Equipment Needed

Books - The books will be in the Campus Book Store under their course codes. The following are the course codes for first semester classes:

- 46-115 Introduction to Psychology
- 63-171 Introduction to Nursing Theory I
- 63-172 Clinical Nursing Experience
- 63-166 Health Assessment 1
- 63-175 Human Anatomy/Human Physiology

Equipment – A stethoscope will be required during your first week of the program and throughout the four years of the program. The choice of a specific brand of stethoscope is a personal choice; however, please ensure that your stethoscope has both a bell and a diaphragm, as each is used for different physical assessments. Blood pressure cuffs are not required and will be supplied in the lab for practice purposes but if you are able to purchase your own it will afford you more opportunity to practice the skill on your own at home.
Very Useful Websites & Resources

**Standards of Practice for Nurses in Ontario - College of Nurses of Ontario (CNO)**
This is a listing of all the standards of practice and guidelines available on the College of Nurses website. The College of Nurses of Ontario (www.cno.org) is an important organization for you to get to know. The CNO is the regulatory body for nurses in Ontario under The Regulated Health Professions Act and the Nurses Act. The purpose of the CNO is to be accountable to the public to ensure registered nurses and registered practical nurses in Ontario practice safely and within professional standards of practice laid out by the CNO. It is strongly suggested that you go to the CNO website www.cno.org over the summer and explore what it has to offer and the information provided there. The following contact information for the CNO is for your future needs:

*College of Nurses of Ontario*
*101 Davenport Road*
*Toronto, ON M5R 3P1*
*E-mail: cno@cnomail.org*
*Web site: www.cno.org*
*Phone: 416-928-0900  Toll-free in Ontario: 1-800-387-5526  Fax: 416-928-6507*

*The Standards of Practice for Nurses in Ontario* is a resource that is **required** for courses 63-171, 63-172 and 63-166 in first semester from the very first week and will also be used throughout the BScN program and well into your career as a nurse! Each document may be downloaded and printed as needed (your course outlines will indicate what you need each week), or you can download the entire package over the summer to have it in time for classes the second week in September. Documents that you will need the first few weeks include:

- You and Your College
- Developing Practice Standards and Guidelines
- Professional Standards, Revised 2002
- Confidentiality and Privacy - Personal Health Information
- Infection Prevention and Control
- An Introduction to the Nursing Act, 1991
- RHPA: Scope of Practice, Controlled Acts Model

**Registered Nurses Association of Ontario (RNAO)**
The RNAO is the professional organization for registered nurses (RN) in Ontario. Membership in this organization is voluntary but very important. Student membership in the RNAO is an opportunity to be linked with the Professional body of RN’s in Ontario. The organization has celebrated over 100 years of nursing excellence and is a forerunner of health policy development in Ontario. The RNAO offers mentorship, direction and leadership for nursing students in the Collaborative Program. Within the RNAO the nursing student will be linked with the local and global opportunities of scholarships, conferences, policy and political updates that impact on nursing and public health. Professionalism in nursing is an important concept to learn as a student nurse, therefore membership costs for RNAO is included in your student fees ($20), to provide you with the opportunity to get connected with our professional nursing
organization in Ontario. Applications for membership will be handed out the first week of October and you will receive your membership starting approximately November 1st for a year.

**RNAO Best Practice Guidelines**
The Best Practice Guidelines published by the RNAO are an excellent resource for nurses to use when assessing and planning care for their clients. They are well researched, peer-reviewed and offer the latest information to practicing nurses. Over the BScN program you will be required to access, download and print these guidelines specific to your area of study at the time. The RNAO website is: [http://www.rnao.org/](http://www.rnao.org/) The Best Practice Guidelines (BPG) list can be found at: [http://www.rnao.org/Page.asp?PageID=1212&SiteNodeID=155&BL_ExpandID](http://www.rnao.org/Page.asp?PageID=1212&SiteNodeID=155&BL_ExpandID)

**St. Clair College – Thames Campus Nursing Society**
The Nursing Society is an organization for BScN students at Thames Campus. The Mission Statement of the Society is: *Promoting Excellence in Nursing Education*. The purpose of the society is to offer a forum for nursing students to interact on an academic, social and community basis. The Nursing Society can bring forward issues that concern all nursing students to the Coordinators of the nursing program or the Chair of the nursing program at Thames Campus. In addition, the society plans social events, coordinates the year-end parties, and gets the nursing students involved in the community. The Nursing Society’s Executive Members are looking forward to meeting new students this year.

**Photo Identification**
All St. Clair students are required to obtain a free student photo ID card in the first few weeks of classes (photo times occur on orientation day and will also be announced and posted at the college on other days). This photo ID is your identification in clinical placement and must be worn always in clinical.

**Communication and Resources**

**Computer and Internet** - It is not necessary for you to have access to a computer and the internet at home but it will be much more convenient for you if you do. Internet and computer access is available at the college at no cost to you. Computer access is available in the library and in several computer rooms around campus. Computer and internet access will be necessary throughout the collaborative program for course work and preparation. Faculty will use electronic resources to share class materials with you.

**E-mail** - The College will provide the student with a college email address on enrollment. Students will be required to check it regularly as it will be the **ONLY** email address the College faculty and staff will use to contact you; personal email addresses cannot be used for College communication. It is a curriculum requirement for first year BScN nursing students to competently use e-mail and check that email regularly.

**Blackboard** - Blackboard is an Internet service/site used by the faculty to communicate readings, lecture notes, assignments, internet links, test results, etc. to students. The nursing student will be automatically
enrolled in this resource if you are registered by mid-August. More information and instructions will be given about Blackboard during orientation.

**Library** – The library is located on the first floor and is open year-round.

**Hours: September to the end of April**

- Monday – Thursday 7:30 a.m. – 9:00 p.m.
- Friday 7:30 a.m. – 4 p.m.
- Saturday 9:00 a.m. – 3:00 p.m.

**May and June**

- Monday – Thursday: 7:30 am – 9:00 pm
- Fridays: 7:30 am – 4:00 pm
- Saturday: Closed

**Summer hours (July and August)**

- Monday – Friday: 7:30 am – 4:00 pm
- Saturday: Closed

A library orientation will be arranged in the first week of clinical and will take place during your clinical day. The library has a wide section of hard copy books, journals and videos but also provides comprehensive access to electronic databases, nursing specific search engines, full text electronic journal articles and interactive CD ROMs. You will find the library resources essential for homework and research. The electronic databases and e-journals can be accessed from home with your student number. An orientation on how to do this will be provided in the first week of classes. The librarians are very happy to assist you with literature searches or if you are having a difficult time locating the material needed. Please feel free to approach Jeanette Giroux (ex. 3232) or Cheryl Smith (ex. 3273).

Please remember there is an enormous difference between nursing research literature and what is found on the internet about a subject. We advise that the nursing student learn to access nursing research as soon as possible. Papers and presentations will be based on nursing research and the expected assignments are to be written in a scholarly manner and following American Psychological Association (APA) formal writing format, FYI: Wikipedia is not considered a scholarly source.

**Attendance**

**Classroom/Lecture** - Regular class attendance is essential to the nursing student’s success in the program. The program includes lecture attendance and participation in laboratories and clinical. We expect that you attend scheduled classes/lectures regularly and only miss due to illness or in emergency situations. Missing tests due to work commitments, vacations or routine appointments are not considered valid reasons for absence. The BScN program operates on the University of Windsor’s schedule for reading weeks. There will be a reading week October 6th to the 14th, 2018 and again in the winter semester February 16th to the 24th, 2019. You will **not have the standard March break off** in this program. There will be no accommodations made for students booking holidays over the March break as this is regular class/clinical time for the BScN Program.
Clinical - Lab and clinical time are vitally important. Clinical is an opportunity to synthesize all the knowledge learned in your classes/lectures and start to put it together to assess clients, plan and give nursing care. These are your only opportunities to learn the practical hands-on skills of nursing. Clinical teachers will monitor and evaluate your progress in clinical based on the CNO competencies for entry to practice as a registered nurse. Missed clinical time can severely limit your ability to meet those competencies. Even with completed makeup work, students who miss lab/clinical may be at risk of not being successful in their clinical courses. Makeup work can never truly simulate the work done in the group, lab or clinical setting. Due to the importance of this the nursing student who misses a clinical or lab day may be required to produce a Doctor or Nurse Practitioner note or meet with the Coordinators of the program to discuss concerns or issues with attendance. All clinical/lab absenteeism is tracked and will show in the students' Clinical Performance Evaluation.

The clinical day is treated like a job if you are going to be absent due to illness you need to notify either your clinical teacher or Ms. Watson’s Administrative Assistant, Linda Quick (extension 3244) and leave a message stating your name, student number and clinical teacher at least 1 HOUR PRIOR to the clinical start time. When you are going to a clinical site you also need to call the nursing station at that site to report your absence as well because it may affect how they have delegated their nurse-patient assignments. Failure to follow the above process is considered a breach of professionalism and is subject to disciplinary action. This process (notifying the school and the clinical site) is to be followed throughout your student nursing experience in the Collaborative BScN program. Something to consider is that one of the key questions asked by all employers on reference checks is “What is her/his attendance record?” Your clinical teacher or the Coordinator of the program may be happy to provide you with a reference for a job but they will be honest about your attendance as well as all aspects of your practice.

“What do we wear to labs and clinical?”

Personal hygiene and appearance are to reflect that of a professional nurse. During clinical placement or field trips, your attire should be either professional business or a designated navy-blue nursing uniform with the Collaborative BScN program insignia, depending on the placement. Your clinical teacher will inform you of which will be required for specific circumstances. Uniforms for the BScN program are standardized and must be ordered from “Work Authority”. Dress, hair, jewelry and other accessories are regulated by our professional conduct and appearance policy. St. Clair College is a scent free institution. You must be aware of four separate dress codes:

1. **Street Dress** is acceptable in the classroom. Some of the classrooms are very cold, others may be hot. Layer your clothing for your own comfort.

2. **Lab Dress**: Flat, comfortable shoes (i.e. running shoes), comfortable fitting clothing for ease of movement in caring for simulated ‘clients’ and in assessment practice.

3. **Clinical Dress and Personal Appearance**: The uniform is a navy-blue short-sleeve scrub top with “BScN Student” embroidered in white on the sleeve, and a navy-blue pant. Any shirts worn under the uniform or head coverings worn for religious/cultural purposes must be white, navy blue or black to match the uniform. However, if wearing long sleeves, they must be raised above the elbow during direct client care for infection control purposes. Head coverings must be plain and unadorned for infection control purposes. Disposable head coverings over or instead of hijab may be required in certain areas (e.g., Operating Room). Students may only wear the approved University of Windsor lab coat/clinical jacket when in client care areas. Lab coats/clinical jackets must be removed when providing direct care to patients. Lab coats must not be worn outside of
the clinical area. Clothing must be clean, free from rips/tears/odour, sized appropriately and modest with no exposed undergarments, midsection, or cleavage. Professional or business attire is required for some community clinical agencies and any visits to an agency. NO blue jeans of any colour, leggings, jeggings, yoga pants, or hooded sweatshirts. Note: in some agencies, denim may be permitted but this must be cleared by the agency. Shoes - closed, non-slip duty or athletic shoes are required, with no mesh openings to allow penetration of fluids. Clogs, “Crocs”, or plastic slip-on shoes are not acceptable due to health and safety concerns, including ankle injuries, trips and falls, spillage, and/or build-up of static electricity that interrupts electronic devices. Students may be required to carry an extra set of shoes to be worn on home visits. No flip-flops. Safety boots may be required in some placement agencies. Shoes must be kept clean. Completely white shoes are no longer a requirement. Gum - gum chewing is not permitted.

Hair - must be neat, clean, pulled away from the face and/or above the collar. Facial hair (e.g., moustache, beard) must also be neatly groomed. Hands - nails must be short, clean and well-manicured. Clear or pastel polish may be worn but must not be chipped. Coloured nail polish may be permitted in certain placement settings on certain days (e.g., “nail polish days” in mental health placements). Any type of artificial nails or nail adornment is not permitted. Make-up/Tattoos – Make-up may be used conservatively. Tattoos may need to be concealed according to clinical agency requirements. Jewellery - is restricted to a plain wedding band, watch and one pair of small earrings only (e.g., studs) will be worn at one time. Other visible body piercings may need to be removed or concealed according to agency requirements. **No lip rings, tongue studs, navel rings, nose rings, eyebrow rings or necklaces will be allowed for safety reasons.** Photo-ID badges must be worn and clearly visible always. (There may be exceptions to this in which case students are to follow agency policy re: name badges).

4. **Professional Business Dress:** The nursing student will be required to present in professional business attire for specific educational assignments for example health fairs, professional meetings, field trips and presentations. Professional business attire means suits, jacket with dress pant or skirt, conservative shoes and conservative jewelry. Whatever the well-dressed executive would wear. No casual wear. No exposure of the shoulders, chest or abdomen is allowed.

**Program Overview**

Please see the attached program overview information which is available on the website at the bottom of this page: [http://www.stclaircollege.ca/programs/postsec/nursing/](http://www.stclaircollege.ca/programs/postsec/nursing/) The overview shows you all the courses you must take to complete the BScN program.

**Academic Counseling & Program Academic Policies**

If you are ever struggling in a course it is important that you seek help from the individual course Professors as soon as possible. Make an appointment to meet with the Professor to go over difficult material or seek guidance and assistance. In addition, you can always come to the program Coordinators to discuss any concerns or to seek help or direction. The Coordinators can arrange tutoring, mentoring or provide guidance as to the best resources to meet your needs. Furthermore, ‘Student Services’ offers a wide range of services to help students be successful and are very knowledgeable and supportive regarding the BScN program.

All nursing courses begin with the number ‘63-XXX’ and have a pass of 60%. Those not beginning with this number have a pass of 50%. **All** courses need to be completed successfully each semester to advance to the next semester. If any courses are not completed successfully they need to be repeated successfully to
advance. Courses beginning with ‘63-XXX’ are nursing core courses and are only offered in their designated semester with no exceptions. Therefore, being unsuccessful in one ‘63-XXX’ course will require the student to go on a five-year degree pathway rather than the four-year path, as that missed ‘63-XXX’ course is only offered annually. Being unsuccessful in the same ‘63-XXX’ course twice or being unsuccessful in a total of three ‘63-XXX’ courses in the program is grounds for academic dismissal. In the case of academic dismissal, the student is dismissed from the program and must sit out for a minimum of 2 years to raise their grade point average (GPA) through taking other university level courses. At the end of two years, if the student has raised their GPA they are permitted to reapply to the program to start again and then would enter the competition for spots in the program.

The University of Windsor uses a system of percentage grades to evaluate your success in a course and to calculate your grade point average (GPA). A GPA of 60% or better keeps you in good standing with the program. A GPA of 55% to 59.9% results in academic probation. If you find yourself in this situation you have one semester to raise your GPA above 60% or you will be required to withdraw from the program. If your GPA is less than 55% you will be immediately required to withdraw from the program.

Your classes start Tuesday September 4th after Labour Day. Clinical will also begin this week.

Some comments from previous nursing students!

“Only nurses know what nurses do, we become a family. You can feel the connection grow as you go through the program.” “The friends you make in nursing school will be friends for life.” “It’s exciting working towards a career that leads to a professional job helping others.”

Have a wonderful summer. We are all looking forward to meeting and working with you this fall. Congratulations on your acceptance victory!
Nursing collaborative Dickies scrub tops must be embroidered on the left arm with “BScN Student”

V-Neck Top-#810506
Classic Missy Fit, V-neck, features two patch pockets and side vents for ease of movement
XS-5XL

Empire Waist Top-#815906
Classic Missy Fit, mock wrap top features and empire waist, front darts, two slanted patch pockets and side vents for ease of movement
XS-3XL

Men’s Utility Top-#816406
Men’s Fit top with a chest pocket, set-in sleeves, back pleats, side vents and a center locker loop on the back yoke. The right patch pocket has a Velcro closure to keep items secure. The left pockets has a pencil pocket
S-5XL

Unisex Utility Pant-#854706
Unisex Utility Pant
XS-5XL

Elastic Waist Pant-#850506
Classic Missy Fit pant features full elastic waist, two cargo pockets and two slash pockets. Also, available in petite (shorter inseam)
XS-5XL
Long sleeve t-shirts, lab coats and white slip resistant footwear are also available.
Please visit or contact one of our four convenient locations in Southwestern Ontario.

Chatham

The Work Authority staff will visit the St. Clair Chatham Thames campus for uniform fitting on Wednesday, August 29th, 2018 from 1000 - 1200 and again Tuesday, September 4th, 2018 from 1000 - 1200. They will be located in the Debriefing Room #2001 in the Mary Uniac Building.

Work Authority accepts Visa/MasterCard/American Express and cash. They do not accept debit. Nursing students receive a 15% discount.

With the 15% discount included, prices are:

- $20.99(Pant)+$20.99(Top)+$5.00(Embroidery)=$46.98+6.11(tax)=$53.09
- $38.24(Lab coat short fitted version)+$4.97(tax)=$43.21 if name embroidered add $7.00
- $25.49(Lab coat longer version)+$3.31(tax)=$28.80 if name embroidered add $7.00

Spring Semester
Chatham campus First Aid/ CPR Course listing

You can register by fax 519-354-6941 or in person. You can register at both the Windsor and Chatham campuses for these courses.
http://www.stclaircollege.ca/programs/coned/health_sciences_coned.html

The Registrar’s Office hours are:
Monday – Thursday 9A-5P
Friday 10A-4P

*Room information is posted in the main lobby on the first day of the course.

STANDARD FIRST AID & CPR C FOR HEALTH CARE PROVIDERS
This 16 hour course teaches an emergency approach on how to manage medical emergencies and render lifesaving care until professional help arrives. Includes skill stations, scenario based learning, applications, and a written exam. Standard First Aid certificate (3 year) and CPR Level C HCP (1 year) certification is awarded on completion.

**Cost $100.00 No additional fees apply**

CPR C HEALTH CARE PROVIDER WITH AED
Delivered by Second Chance CPR, this 4 hour course will certify the student in CPR C for Health Care Providers and AED. This course is designed for people who work in an area where a Public Access Defibrillator is available, or for personnel who are looking to further their medical training. Course includes anticipation/planning of a cardiac arrest, step by step instructions on how to successfully use a defibrillator, care and stabilization of a patient. Medical Delegation, quality assurance reviews and policies and procedures.

**Cost $75.00 No additional fees apply**
