### Discussion

- Surveys
  - Rebecca emailed to the group some time ago the results from the Ministry Survey on sexual violence as well as the University of Windsor survey for review. The following comments from the team.
    - Results were not surprising but disappointing at the same time
    - Still too many sexual assaults taking place on and off campus
    - Good to see that students seem mostly aware of supports on campus
- Policy and Procedure Re-Work
  - The policy and protocol are almost finalized. The team has reviewed the draft and provided the following feedback:
    - Informal Reports – a discussion was held on informal reports and whether or not they need to be communicated up. There is an expectation of confidentiality. Rebecca impressed the need to work with her on these cases, no name as a starting point, and a decision can be made on whether or not the College needs to move forward based on risk. However, these need to be brought forward.
    - There is still a strong desire for a “one point of contact”. Rebecca agreed to add a single point of contact to the policy.
- Training and Education
  - Bystander – need to determine who conducts training if we move it forward
  - Video on Consent – team would like the College to revisit the video on consent to make it more applicable to students
  - Discussed several different videos – Tea video, Party/Alcohol video
  - Fall – sessions on consent planned
  - TSI, SRC and SAA – week long consent week planned

- Terms of Reference
  - Rebecca distributed a Terms of Reference for the committee
    - Terms were approved
