

Master Certificate in Project Management + Technology

The Atocrates Institute for Project Sciences, an award winning Executive and Professional Education Provider in compliance with PMI and other supporting Global Standards, was the principal content producer of Canada's number one Master's Certificate curriculum in Project Management offered through leading colleges and universities from coast to coast.

One of Atocrates' flagship programs is this unique Master Certificate, which is comprised of 5 modules, totalling 160 classroom hours, with substantial team and homework commitment. Each module must be taken in sequence. To be awarded this prestigious master certificate, you must earn it by achieving a passing grade of 65% on all modules, as well as a minimum of 65% on the each end-of-module exam.

***** ONE EVENING PER WEEK – PLUS SATURDAY CLASS EVERY 6 WEEKS
LIVE – ONLINE – or in person when appropriate**

MODULE #1: CNT 852N

'The Project Environment: an Introduction' This first of five modules introduces the fundamentals of initiating, planning, executing, monitoring & controlling, and closing projects. More importantly the *often-complicated* environment in which these efforts are performed are examined. Trainees will develop an understanding of the traditional and modern adaptive methods for managing projects. Course 32 hours, 2 units of credit. \$1,100.00. **Wed: Sept. 14th, 21, 28, Oct. 5, Oct. 12th and Oct 19th; 5:30pm - 9:30 pm; Sat: 8A-5P: October 1st/2022**

MODULE #2: CNT 853N 'Communications, Leadership & Team Development'

This learning module, the second in the series of five, focuses on the complexities of the project environment - you will learn about the skills and attributes which go into the makeup of an individual who exhibits leadership qualities. These behavioral qualities include: -stakeholder management - time management - leaders vs. managers - conflict resolution -team builders - rational thought Course 32 hours, 2 units of credit. \$1,100.00. **Wed: Nov 2, 9, 16, 30th, Dec. 7, 14th, 5:30P-9:30P & Sat: Nov. 19/2022: 8A-5P.**

Modules 3-5 →

... TAUGHT IN COMPLIANCE WITH THESE GLOBAL STANDARDS ...

Master Certificate in Project Management + Technology

MODULE #3: CNT 851N 'Project Planning & Execution'

In this, the third learning module in the Master Certificate you will receive the basics about the project management discipline, including Project Selection. You will also review highlights of the subject matter from both previous models. Primary focus will be on Scope and Quality, Risk & Procurement, Resources and Communications, Schedule and Cost. This focus will serve to prepare you to successfully complete the MCPM+T Program's Capstone Simulation case study in the final learning module. Course 32 hours, 2 units of credit, \$1,100.00.

Wed: Jan 4, 11, 18, Feb. 1, 8, & 15th: 5:30P-9:30P & Sat: Jan. 21/2023: 8A-5P

MODULE #4: CNT 854N 'Project Tools & Technology'

Significantly improve your organization's efficiency using software technology tools covered in this module. Trainees will create a work breakdown structure (WBS), logical network diagrams, Gantt charts, identify tasks, assign resources to tasks, create a project calendar, and create custom reports, monitor progress, track budgets, schedule, and task status.

Trainees will create project plan templates including risk, decision tables and tasks in this hands-on module. A list of free downloadable software will be made available. Course 32 hours, 2 units of credit. \$1,100.00. **Wed: Mar 1, 8, 15, 29, Apr 5, 12th: 5:30P-9:30P: and Sat: Mar 18/2023 8A-5P:**

MODULE #5: CNT 855N 'Program Capstone Simulation using Tools & Technology'

In this Program Capstone, the last in the Master Certificate, a powerful real-to-life experiential learning module awaits.

Teams will produce an integrated Project Management Plan and supporting documentation after designing, gaining approval and competing against other teams in a final project competition. This module is the application of all that has been learned in the previous modules.

The integration of all elements starting from where it begins: The WHY, The WHO, The WHAT? The HOW? and The WHEN. Course 32 hours, 2 units of credit: \$1,100.00 **Wed: April 26, May 3, 10, 17, 24, and June 7th: 5:30P - 9:30P; and Sat: May 27th, 2023: 8A - 5P**

ST. CLAIR
COLLEGE
